Professional Profile

Looking for someone to not only develop robust projects, but also to communicate technical concepts to stakeholders? Look no further. I'm an experienced Full-Stack Developer with an additional 5+ years of experience in Communications & Marketing seeking a Full-Stack Software Engineering position.

Technical Skills

// Languages	Javascript/Typescript/Node.js, React, Java Spring/Spring Boot, SQL, HTML, CSS/SCSS
// CI/CD	Agile, Scrum, Kanban, Git, GitHub Actions, Firebase Deployment, Jenkins, CloudBees/SDP
// AWS	Lambda, CodeBuild, EC2, ECR, ECS, S3, IAM, DynamoDB, RDS
// Testing Tools	Jest, React Testing Library, Selenium, Serenity, Enzyme, Puppeteer, Postman, Insomnia
// Databases	PostgreSQL, MongoDB, pgAdmin, DBeaver, AWS DynamoDB, AWS RDS
// Design	Xd, Figma, Illustrator, InDesign, Photoshop, Canva, Mural

Technical Projects

- **Rainbow Connector** https://rainbowconnector-ui.onrender.com
  - Full-stack application utilizing React/Node.js, Leaflet Map library, Ant Design React UI Library, PostgreSQL and Cloudinary to store images in the database. Deployed via Render.
    - Test login: testuser1@email.com PW: Password1 - or create your own login
- **Hindsight** https://hindsightbitcoinvisualizer.web.app/
  - Single Page App created with React utilizing the CoinGecko API & Ant Design React UI Library to showcase historical Bitcoin data. Deployed via Firebase.
- **Jenn's Christmas List** https://jennschristmaslist.web.app/
  - Simple Single Page App - utilizes React, Material UI, and a Link Preview library to display wishlist items.
- **Banner Generator** https://jlfarrington.github.io/bannerGenerator/
  - Utilized Lorem Picsum API, HTML 5, CSS 3, and JavaScript to create a Banner Image Generator that allows you to choose and customize text and toggle blur and grayscale.

Professional Experience

// JUNE 2021 - PRESENT Consultant/Software Engineer II, Daugherty Business Solutions, Bloomington MN
- Developed full-stack web applications for Daugherty clients, including a Fortune 500 global leader in agriculture
- Developed Node.js and Typescript back-end APIs and AWS lambdas to build a custom solution for client's project needs
- Duplicated entire AWS environment for a client team to have safer "dev" deployable development environment
- Developed improvements for a legacy system for a US leading Financial Institution using Java, JSPs, and Struts
- Improved and maintained automation testing suites using Selenium, Serenity, Cucumber, Gherkin BDD methods

// JULY 2018 – JUNE 2021 Marketing Director, Aidex / Buckeye Educational Systems, Rossville IN
- Directed all marketing initiatives for two educational technology providers servicing a nine-state region
- Directed complete redesign of buckeye-edu.com, coordinating with a full team of web developers
- Reported campaign analytics using methods such as A/B testing and KPI focuses, and compared results with similar companies via our nationwide cooperative of educational technology providers

// AUGUST 2017 – JULY 2018 Marketing Coordinator, IDC-USA (Now Affiliated Distributors), Indianapolis IN
- Updated website daily with accurate industry news, promotions, and price alerts using Adobe Dreamweaver
- Produced strategic email communications to suppliers and distributors using Delivra email marketing platform
- Created content for web, digital, and print use

Education
